Let's walk-through the Trademark application process!

Need to file a trademark yourself but don't know how? Then, you don't want to miss this live walk-through of the trademark application process with an Attorney Advisor for Trademark Educational Outreach at the USPTO. The presentation will cover how to use the Trademark Electronic Application System (TEAS) and explain the various sections of each form.

Event Details 3:00 pm-4:25 pm

Path to a Patent: How to draft provisional patent applications and become PATENT PENDING!

Stuck in limbo due to the pandemic? Not comfortable trusting or sharing information about your invention without IP protection? Concerned about having publicly disclosed your innovation within the past 12 months and need to become Patent Pending asap? Learn from USPTO experts the key differences between provisional and non-provisional patent applications, filing requirements and fees, the different ways available to file a provisional application, and more.

Event Details 4:30 pm-5:30 pm

01/13/2021

Path to a Patent: Learn how to draft patent claims to better protect your innovation.

Claim drafting may be the most important part of protecting your invention. Learn the basics of claim drafting from USPTO experts in this interactive workshop. You will develop a better appreciation of how a patent examiner views a claim during the course of examination.

Event Details 3:00 pm-4:25 pm

Path to a Patent: Common mistakes and support available to you after filing

During this time of national crisis, many inventors find themselves with little resources to afford an attorney to secure needed IP. Hence, many must consider filing patent applications their self to meet certain USPTO deadlines. This session is designed to provide inventors with relevant information on topics that assist with applying for a patent. It will also address the common mistakes made (especially by inventors) and how to avoid them along with how to remedy errors when an "office action" is received from the USPTO. This information should also prove helpful in clarifying how to "read" and better "understand" patents.

Event Details 4:30 pm-5:30 pm

Brought to you in collaboration with IASL, USPTO, and Washington Univ. of St. Louis Skandalaris Center
